

**~~bù ĐỒNG!~~**

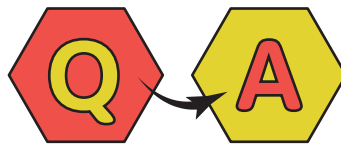

**1**

Set up the **base (tower)** so it's standing on its smaller end - the end without the cuts. It should look like a vase.

**3**

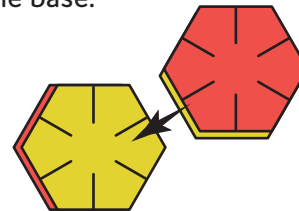

The team going first should draw a card. Read the question on the red side, give your answer, and flip the card over to the yellow side to see if you're correct.

**1**

**5**

This pair is one of your **building blocks**. Each building block can be attached to another building block (any color) or another point on the base.

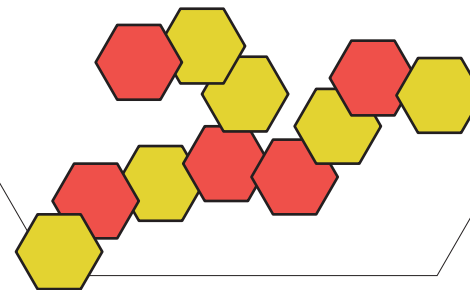

**5**

**3**

**7**

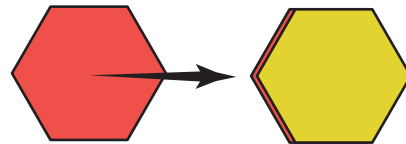

Continue taking turns answering questions, creating building blocks, and building a structure.

**7**

6

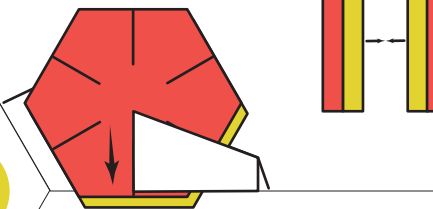

If you're wrong, then you have to **forfeit (give) the card** to the other team, and they get to make their own building block.

6

4

If you're correct, you get to **keep that card**. Grab another random card from the pile and put them together like a sandwich, with your team color facing out. Notch the sandwiched pair of cards into the base.

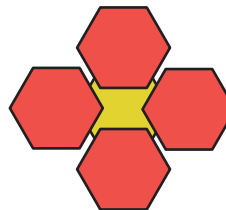

8

8

To win, you have to have more **building blocks in the structure** than the other team after all the cards are used. However, if you **make the structure fall in any way**, your team automatically **loses**. So be careful!

Good luck!

4

With **bù-DÔNG!**, test your knowledge of Barnes & Noble trivia with your friends! Compete to build a cool structure with as many of your pieces as you can! Improve your critical thinking and physical skills! But don't be the one that makes the structure fall! Ages 6 and up.

2

Shuffle the red and yellow cards with the **red sides facing up**. Place the cards in a pile. Form two teams (Team Red and Team Yellow) and determine who goes first.
